

Development / Monitoring / Review of this Policy

This e-safety policy has been developed by a working group made up of:

- *Headteacher /SLT*
- *Coordinator*
- *Staff – including Teachers, Support Staff, Technical staff*
- *Governors*

Schedule for Development / Monitoring / Review

This e-safety policy was approved by the <i>Governing Body</i> on:	February 2015
The implementation of this e-safety policy will be monitored by the:	<i>SLT/SMT</i>
Monitoring will take place at regular intervals:	<i>Annually</i>
The <i>Governing Body</i> will receive a report on the implementation of the e-safety policy generated by the monitoring group (which will include anonymous details of e-safety incidents) at regular intervals:	<i>Annually</i>
The E-Safety Policy will be reviewed annually, or more regularly, in the light of any significant new developments in the use of the technologies, new threats to e-safety or incidents that have taken place. The next anticipated review date will be:	<i>March 2016 (annual review is essential in the light of the rapidly-changing scenario)</i>
Should serious e-safety incidents take place, the following external persons / agencies should be informed:	<i>E-Safety Officer of NES/ CEOP/ possibly Childline.(Links on school website)</i>

The school will monitor the impact of the policy using:

- surveys / questionnaires of students / pupils/ parents
- feedback from parents / carers
- feedback/training requests from staff

Scope of the Policy

This policy applies to all members of the *school community* (including staff, students / pupils, volunteers, parents / carers, visitors, community users) who have access to and are users of school ICT systems, both in and out of the *school*.

The Education and Inspections Act 2006 empowers Headteachers to such extent as is reasonable, to regulate the behaviour of pupils when they are off the *school* site and empowers members of staff to impose disciplinary penalties for inappropriate behaviour. This is pertinent to incidents of cyber-bullying, or other e-safety incidents covered by this policy, which may take place outside of the school, but may be linked to membership of the school. The 2011 Education Act increased these powers with regard to the searching for and of electronic devices and the deletion of data). In the case of both acts, action can only be taken over issues covered by the published school's Behaviour for Learning Policy.

The *school* will deal with such incidents within this policy and associated behaviour and anti-bullying policies and will, where known, inform parents / carers of incidents of inappropriate e-safety behaviour that take place out of school.

Roles and Responsibilities:

The following section outlines the e-safety roles and responsibilities of individuals and groups within the school:

Governors:

Governors are responsible for the approval of the E-Safety Policy and for reviewing the effectiveness of the policy. This will be carried out by the *Governors* receiving regular information about e-safety incidents and monitoring reports. A member of the *Governing Body* has taken on the role of *E-Safety Governor*. The role of the *E-Safety Governor* will include:

- *regular meetings with the E-Safety Co-ordinator*
- *regular monitoring of e-safety incident logs (stored under e-safety on Central Resources)*
- *regular monitoring of filtering / change control logs*
- *reporting to relevant Governors / Board / committee / meeting*
- *attendance, whenever possible, at school-based e-safety presentations.*

Headteacher and Senior Leaders:

- The *Headteacher* has a duty of care for ensuring the safety (including e-safety) of members of the school community
- The Senior Leadership Team should be aware of the procedures to be followed in the event of a serious e-safety allegation being made against a member of staff.
- *The Headteacher and Senior Leaders are responsible for ensuring that the E-Safety Coordinator and other relevant staff receive suitable training to enable them to carry out their e-safety roles and to train other colleagues, as relevant.*
- *The Headteacher will ensure that there is a system in place to allow for monitoring and support of those in school who carry out the internal e-safety monitoring role. This is to provide a safety net and also support to those colleagues who take on important monitoring roles.*

E-Safety Coordinator:

- leads the e-safety initiatives and monitors incidents
- takes day to day responsibility for e-safety issues and has a leading role in establishing and reviewing the school e-safety policies / documents
- ensures that all staff are aware of the child-protection procedures that need to be followed in the event of an e-safety incident taking place.
- provides training and advice for staff
- liaises with the Local Authority / relevant body
- liaises with school technical staff
- receives reports of e-safety incidents and creates a log of incidents to inform future e-safety developments,
- meets regularly with *E-Safety Governor* to discuss current issues, review incident logs and filtering / change control logs
- attends relevant meeting / committee of *Governors*
- reports regularly to Senior Leadership Team

Network Manager / Technical staff:

The *Co-ordinator for ICT / Computing* is responsible for ensuring:

- that the *school's* technical infrastructure is secure and is not open to misuse or malicious attack
- that the *school* meets required e-safety technical requirements and any *Local Authority / other relevant body* E-Safety Policy / Guidance that may apply.
- that users may only access the networks and devices through a properly enforced password protection policy, in which passwords are regularly changed
- *the filtering policy (LGfL managed) is applied and updated on a regular basis and that its implementation is not the sole responsibility of any single person*
- that they keep up to date with e-safety technical information in order to effectively carry out their e-safety role and to inform and update others as relevant
- that the use of the *network / internet / Virtual Learning Environment / remote access / email* is regularly monitored in order that any misuse / attempted misuse can be reported to the *SLT and E-Safety Coordinator*

Teaching and Support Staff:

are responsible for ensuring that:

- they have an up to date awareness of e-safety matters and of the current *school* e-safety policy and practices
- they have read, understood and signed the Staff Acceptable Use Policy / Agreement (AUP)
- they report any suspected misuse or problem to the *co-ordinator* for investigation / action / sanction who will, in turn, address issues of concern to the Headteacher
- all digital communications with students / pupils / parents / carers should be on a professional level *and only carried out using official school systems*
- e-safety issues are embedded in all aspects of the curriculum and other activities
- students / pupils understand and follow the e-safety and acceptable use policies
- students / pupils have a good understanding of research skills and the need to avoid plagiarism and uphold copyright regulations
- they monitor the use of digital technologies, mobile devices, cameras etc in lessons and other school activities (where allowed) and implement current policies with regard to these devices
- *in lessons where internet use is pre-planned pupils should be guided to sites checked as suitable for their use and that processes are in place for dealing with any unsuitable material that is found in internet searches*

All pupils/staff use the Hector Protector screen-saver and internal NESSIE code of conduct.

Child Protection / Safeguarding Designated Person :

should be trained in e-safety issues and be aware of the potential for serious child protection / safeguarding issues to arise from:

- sharing of personal data
- access to illegal / inappropriate materials
- inappropriate on-line contact with adults / strangers
- potential or actual incidents of grooming
- cyber-bullying

Pupils:

- are responsible for using the *school's* digital technology systems in accordance with the Pupil Acceptable Use Policy
- have a good understanding of research skills and the need to avoid plagiarism and uphold copyright regulations
- need to understand the importance of reporting abuse, misuse or access to inappropriate materials and know how to do so
- will be expected to know and understand policies on the use of mobile devices and digital cameras. They should also know and understand policies on the taking / use of images and on cyber-bullying.
- should understand the importance of adopting good e-safety practice when using digital technologies out of school and realise that the *school's* E-Safety Policy covers their actions out of school, if related to their membership of the school
- must know our 'Nessie' Code of Conduct and how to use Hector Protector.

Parents / Carers:

Parents / Carers play a crucial role in ensuring that their children understand the need to use the internet / mobile devices in an appropriate way. The *school* will take every opportunity to help parents understand these issues through *parents' evenings, newsletters, letters, website and information about national / local e-safety campaigns / literature*. Parents and carers will be encouraged to support the *school* in promoting good e-safety practice and to follow guidelines on the appropriate use of:

- digital and video images taken at school events
- access to parents' sections of the website / blog
- their children's personal devices in the school (where this is allowed)

Community Users/Visitors

Community Users/visitors who access school systems / website as part of the wider *school* provision will be expected to sign a Community User AUA before being provided with access to school systems.

Education – pupils

Whilst regulation and technical solutions are very important, their use must be balanced by educating *pupils* to take a responsible approach. The education of *pupils* in e-safety is therefore an essential part of the school's e-safety provision. Children and young people need the help and support of the school to recognise and avoid e-safety risks and build their resilience.

E-safety is a primary-focus in all areas of the curriculum and the staff is expected to reinforce e-safety messages across the curriculum. The e-safety curriculum must be broad, relevant and progressive, with opportunities for creative activities. This is provided in the following ways (drawing upon the resources of the LGfL, CEOP and 'think-u-know', Safer Internet Day and beyond):

- A planned e-safety curriculum is provided as part of Computing / PHSE / other lessons and should be regularly revisited;
- Key e-safety messages are reinforced as part of a planned programme of assemblies and pastoral activities (eg the 'Messages' posted around the school);
- Pupils are taught in all lessons to be critically aware of the materials / content they access on-line and are guided in their validation of the accuracy of information;
- Pupils are taught to acknowledge the source of information used and to respect copyright when using material accessed on the internet;
- Students / pupils are helped to understand the need for the Pupil Acceptable Use Agreement and are encouraged to adopt safe and responsible use both within and outside school;
- Staff MUST act as good role models in their use of digital technologies, the internet and mobile devices (including social media/Twitter etc);
- In lessons where internet use is pre-planned, it is expected practice that pupils be guided to sites pre-checked as being suitable for their use and that processes are in place for dealing with any unsuitable material that is found in internet searches. Approved sites may be linked to my.uso.im and/or the school website;
- Where pupils are allowed to freely search the internet, staff should be vigilant in monitoring the content of the websites the young people visit. YOUTUBE is filtered and any use of YOUTUBE by staff is pre-planned and viewed to ensure that the material is genuine and that links are not inappropriate. The use of SAFESearch is expected at all times;
- NO PUPIL is permitted to access YOUTUBE or social media sites (including email) when in school;
- It is accepted that from time to time, for good educational reasons, students may need to research topics (eg racism, drugs, discrimination) that would normally result in internet searches being blocked. In such a situation, staff can request that the Technical Staff (or other relevant designated person) can temporarily remove those sites from the filtered list for the period of study. Any request to do so, should be auditable, with clear reasons given for the need.

NESSIE: North Ealing School's Safe Internet Environment:

Never chat with strangers
Enter sites thoughtfully
Secure your password
Safe surfing
If in doubt- ask!
Educate others!

Education – parents / carers :

Many parents and carers have only a limited understanding of e-safety risks and issues, yet they play an essential role in the education of their children and in the monitoring / regulation of their children's on-line behaviours. Parents may underestimate how often children and young people come across potentially harmful and inappropriate material on the internet and may be unsure about how to respond.

The school will therefore seek to provide information and awareness to parents and carers through:

- Curriculum activities
- Letters, newsletters, website,
- Parents / Carers evenings / sessions
- High profile events / campaigns eg Safer Internet Day
- Reference to the relevant web sites / publications

Education – The Wider Community :

The school will provide opportunities for local community groups / members of the community to gain from the school's e-safety knowledge and experience. This may be offered through the following:

- Providing family learning courses in use of new digital technologies, digital literacy and e-safety
- E-Safety messages targeted towards grandparents and other relatives as well as parents.
- The school website provides up-to-date e-safety information for the wider community (including links to CEOP)
- Supporting community groups eg Early Years Settings, Childminders, youth / sports / voluntary groups to enhance their e-safety provision

Education & Training – Staff / Volunteers

It is essential that all staff receive e-safety training and understand their responsibilities, as outlined in this policy. Training will be offered as follows:

- A programme of formal e-safety training will be made available to staff. This will be regularly updated and reinforced. An audit of the e-safety training needs of all staff will be carried out regularly. It is expected that some staff will identify e-safety as a training need within the performance management process.
- All new staff should receive e-safety training as part of their induction programme, ensuring that they fully understand the school e-safety policy and Acceptable Use Agreements.
- The E-Safety Coordinator (or other nominated person) will receive regular updates through attendance at external training events (eg from LA / other relevant organisations) and by reviewing guidance documents released by relevant organisations.
- This E-Safety policy and its updates will be presented to and discussed by staff in staff / team meetings / INSET days.
- The E-Safety Coordinator / Officer (or other nominated person) will provide advice / guidance / training to individuals as required.

Training – Governors

Governors should take part in e-safety training / awareness sessions, with particular focus upon those who are members of any sub-committee / group involved in technology / e-safety / health and safety / child protection. This may be offered in a number of ways:

- Attendance at training provided by the Local Authority / National Governors Association / or other relevant organisation
- Participation in school training / information sessions for staff

Technical – infrastructure / equipment, filtering and monitoring

The school will be responsible for ensuring that the school infrastructure / network is as safe and secure as is reasonably possible and that policies and procedures approved within this policy are implemented. It will also need to ensure that the relevant people named in the above sections will be effective in carrying out their e-safety responsibilities:

- School technical systems will be managed in ways that ensure that the school meets recommended technical requirements
- There will be regular reviews and audits of the safety and security of school technical systems
- Servers, wireless systems and cabling must be securely located and physical access restricted
- All users will have clearly defined access rights to school technical systems and devices.
- The headteacher / LA officer is responsible for ensuring that software licence logs are accurate and up to date and that regular checks are made to reconcile the number of licences purchased against the number of software installations
- Internet access is filtered for all users.
- School technical staff regularly monitor and record the activity of users on the school technical systems and users are made aware of this in the Acceptable Use Agreement.
- [An incident log/reporting form](#) for users to report any actual / potential technical incident / security breach to the relevant person, is in place.
- Appropriate security measures are in place to protect the servers, firewalls, routers, wireless systems, work stations, mobile devices etc from accidental or malicious attempts which might threaten the security of the school systems and data. These are tested regularly. The school infrastructure and individual workstations are protected by up to date virus software.
- An agreed policy is in place for the provision of temporary access of “guests” (eg trainee teachers, supply teachers, visitors) onto the school systems.
- Personal data cannot be sent over the internet or taken off the school site unless safely encrypted or otherwise secured.

Bring Your Own Device (BYOD):

The educational opportunities offered by mobile technologies are being expanded as a wide range of devices, software and online services become available for teaching and learning, within and beyond the classroom. This has led to the exploration by schools of users bringing their own technologies in order to provide a greater freedom of choice and usability. However, there are a number of e-safety considerations for BYOD that need to be reviewed prior to implementing such a policy. Use of BYOD should not introduce vulnerabilities into existing secure environments. Considerations will need to include; levels of secure access, filtering, data protection, storage and transfer of data, mobile device management systems, training, support, acceptable use, auditing and monitoring.

- The school has a set of clear expectations and responsibilities for all users
- The school adheres to the Data Protection Act principles
- All users are provided with and accept the Acceptable Use Agreement
- All network systems are secure and access for users is differentiated
- Where possible these devices will be covered by the school's / normal filtering systems, while being used on the premises
- All users will use their username and password and keep this safe
- Mandatory training is undertaken for all staff
- Pupils receive training and guidance on the use of personal devices
- Regular audits and monitoring of usage will take place to ensure compliance
- Any device loss, theft, change of ownership of the device will be reported as in the BYOD policy
- Any user leaving the school will follow the process outlined within the BYOD policy

Use of digital and video images :

The development of digital imaging technologies has created significant benefits to learning, allowing staff and pupils instant use of images that they have recorded themselves or downloaded from the internet. However, staff, parents / carers and pupils need to be aware of the risks associated with publishing digital images on the internet. Such images may provide avenues for cyberbullying to take place. Digital images may remain available on the internet forever and may cause harm or embarrassment to individuals in the short or longer term. It is common for employers to carry out internet searches for information about potential and existing employees. The school will inform and educate users about these risks and will implement policies to reduce the likelihood of the potential for harm:

- When using digital images, staff should inform and educate pupils about the risks associated with the taking, use, sharing, publication and distribution of images. In particular they should recognise the risks attached to publishing their own images on the internet eg on social networking sites.
- In accordance with guidance from the Information Commissioner's Office, parents / carers are welcome to take videos and digital images of their children at school events for their own personal use (as such use is not covered by the Data Protection Act). To respect everyone's privacy and in some cases protection, these images should not be published / made publicly available on social networking sites, nor should parents / carers comment on any activities involving other students / pupils in the digital / video images.
- Staff and volunteers are allowed to take digital / video images to support educational aims, but must follow school policies concerning the sharing, distribution and publication of those images. Those images should only be taken on school equipment, the personal equipment of staff should not be used for such purposes except with the written consent of the e-safety co-ordinator and/or the headteacher
- Care should be taken when taking digital / video images that students / pupils are appropriately dressed and are not participating in activities that might bring the individuals or the school into disrepute.
- Pupils must not take, use, share, publish or distribute images of others without their permission
- Photographs published on the website, or elsewhere that include pupils will be selected carefully and will comply with good practice guidance on the use of such images.
- Pupils' full names will not be used anywhere on a website or blog, particularly in association with photographs.
- Written permission from parents or carers will be obtained before photographs of students / pupils are published on the school website
- Pupil's work can only be published with the permission of the pupil and parents or carers.

Data Protection (see separate policy for detail):

Personal data will be recorded, processed, transferred and made available according to the Data Protection Act 1998 which states that personal data must be:

- Fairly and lawfully processed
- Processed for limited purposes
- Adequate, relevant and not excessive
- Accurate
- Kept no longer than is necessary
- Processed in accordance with the data subject's rights
- Secure
- Only transferred to others with adequate protection.

The school must ensure that:

- It will hold the minimum personal data necessary to enable it to perform its function and it will not hold it for longer than necessary for the purposes it was collected for.
- Every effort will be made to ensure that data held is accurate, up to date and that inaccuracies are corrected without unnecessary delay.
- All personal data will be fairly obtained in accordance with the "Privacy Notice" and lawfully processed in accordance with the "Conditions for Processing".
- It has a Data Protection Policy
- It is registered as a Data Controller for the purposes of the Data Protection Act (DPA)
- Responsible persons have been appointed / identified - Senior Information Risk Officer (SIRO) and Information Asset Owners (IAOs)
- Risk assessments are carried out
- It has clear and understood arrangements for the security, storage and transfer of personal data
- Data subjects have rights of access and there are clear procedures for this to be obtained
- There are clear and understood policies and routines for the deletion and disposal of data
- There is a policy for reporting, logging, managing and recovering from information risk incidents
- There are clear Data Protection clauses in all contracts where personal data may be passed to third parties
- There are clear policies about the use of cloud storage / cloud computing which ensure that such data storage meets the requirements laid down by the Information Commissioner's Office.

Staff must ensure that they:

- **At all times take care to ensure the safe keeping of personal data, minimising the risk of its loss or misuse.**
- **Use personal data only on secure password protected computers and other devices, ensuring that they are properly "logged-off" at the end of any session in which they are using personal data.**
- **Transfer data using encryption and secure password protected devices.**

Communications:

A wide range of rapidly developing communications technologies has the potential to enhance learning. The following table shows how the school currently considers the benefit of using these technologies for education outweighs their risks / disadvantages:

	Staff & other adults			Students / Pupils				
	Always	With permission	Never	Always	With permission	With supervision	Never in school	As specific learning tool.
Mobile phones may be brought to school	X						X	
Use of mobile phones in lessons			X				X	
Use of mobile phones in social time	X				X			
Taking photos on mobile phones / cameras		X					X	
Use of other mobile devices eg tablets	X							X
Use of personal email addresses in school, or on school network		X					X	
Use of school email for personal emails		X					X	
Use of messaging apps (Twitter)		X					X	
Use of social media		X					X	
Use of blogs (the school blogsite)	X					X		

When using communication technologies the school considers the following as good practice:

- The official school email service may be regarded as safe and secure and is monitored. Users should be aware that email communications are monitored. Staff and pupils should therefore use only the school email service to communicate with others when in school, or on school systems (eg by remote access).
- Users must immediately report, to the nominated person – in accordance with the school policy, the receipt of any communication that makes them feel uncomfortable, is offensive, discriminatory, threatening or bullying in nature and must not respond to any such communication
- Any digital communication between staff and students / pupils or parents / carers (email) must be professional in tone and content. These communications may only take place on official (monitored) school systems. Personal email addresses, text messaging or social media must not be used for these communications.
- Pupils are regularly taught about e-safety issues, such as the risks attached to the sharing of personal details. They are also taught strategies to deal with inappropriate communications and are reminded of the need to communicate appropriately when using digital technologies.
- Personal information should not be posted on the school website and only official email addresses should be used to identify members of staff.

Social Media - Protecting Professional Identity:

All schools and local authorities have a duty of care to provide a safe learning environment for pupils and staff. Schools and local authorities could be held responsible, indirectly for acts of their employees in the course of their employment. Staff members who harass, cyberbully, discriminate on the grounds of sex, race or disability or who defame a third party may render the *school* or local authority liable to the injured party. Reasonable steps to prevent predictable harm must be in place.

The school provides the following measures to ensure reasonable steps are in place to minimise risk of harm to pupils, staff and the school through limiting access to personal information:

- Training to include: acceptable use; social media risks; checking of settings; data protection; reporting issues.
- Clear reporting guidance, including responsibilities, procedures and sanctions
- Risk assessment, including legal risk

School staff should ensure that:

- No reference should be made in social media to pupils, parents / carers or school staff
- They do not engage in online discussion on personal matters relating to members of the school community
- Personal opinions should not be attributed to the *school* or local authority
- Security settings on personal social media profiles are regularly checked to minimise risk of loss of personal information.

The *school's* use of social media for professional purposes will be checked regularly by the senior risk officer and e-safety committee to ensure compliance with the Social Media, Data Protection, Communications, Digital Image and Video Policies.

Unsuitable/inappropriate activities:

The school believes that the activities referred to in the following section would be inappropriate in a school context and that users, as defined below, should not engage in these activities in school or outside school when using school equipment or systems. The school policy restricts usage as follows:

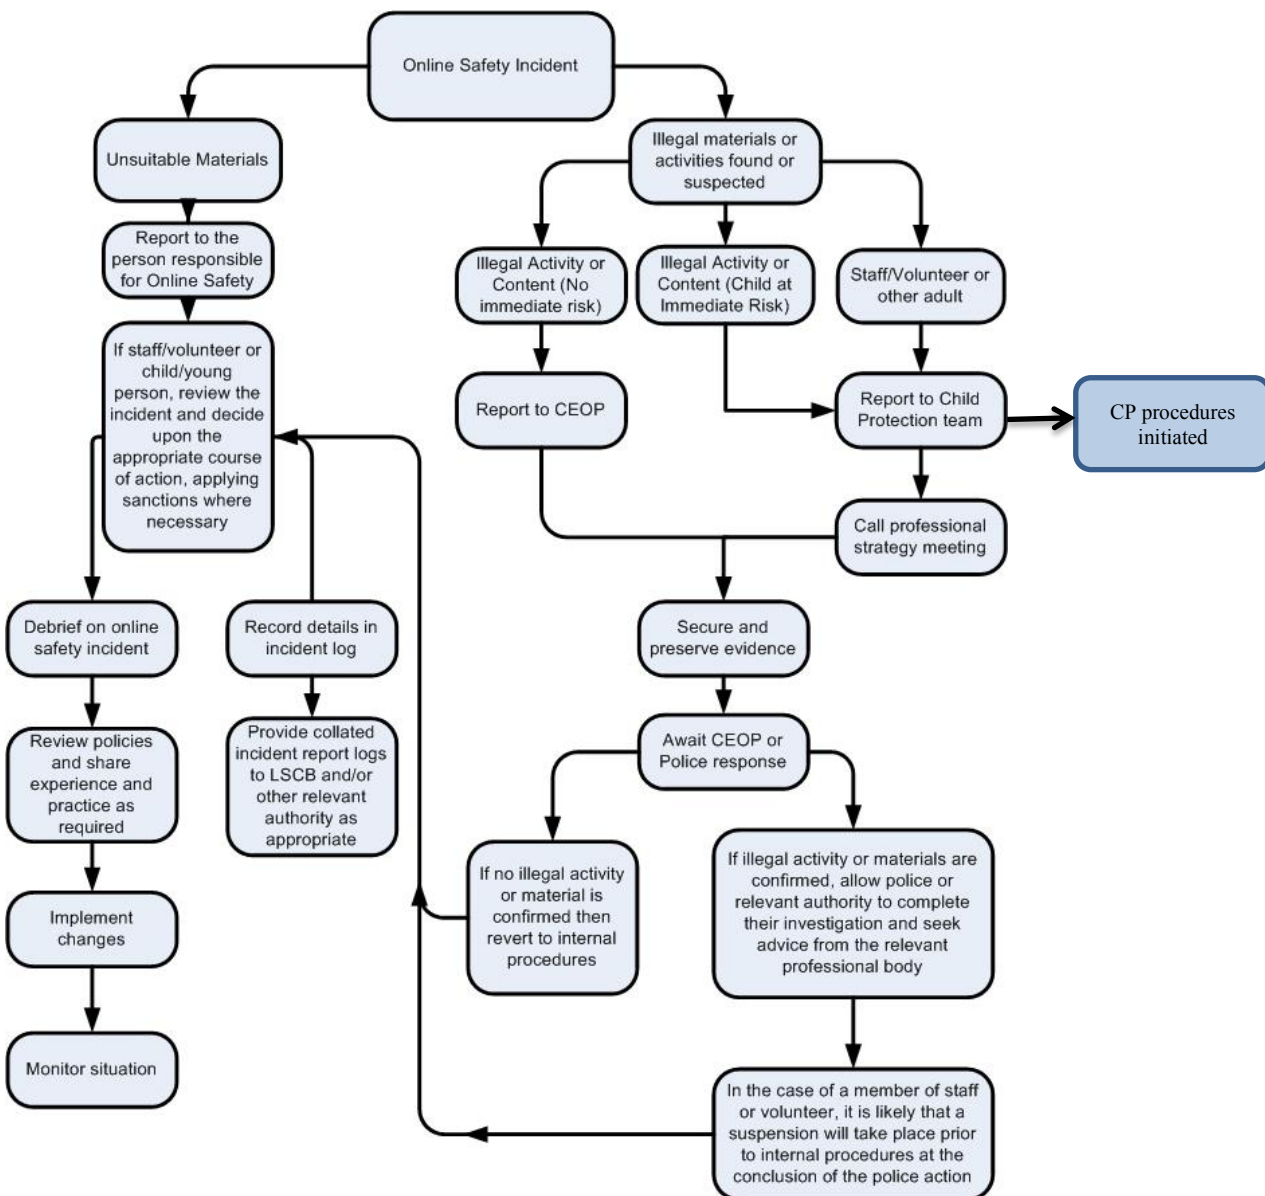

User Actions		Acceptable	Acceptable at certain	Acceptable for nominated	Unacceptable	Unacceptable and illegal
Users shall not visit Internet sites, make, post, download, upload, data transfer, communicate or pass on, material, remarks, proposals or comments that contain or relate to:	Child sexual abuse images –The making, production or distribution of indecent images of children. Contrary to The Protection of Children Act 1978					X
	Grooming, incitement, arrangement or facilitation of sexual acts against children Contrary to the Sexual Offences Act 2003.					X
	Possession of an extreme pornographic image (grossly offensive, disgusting or otherwise of an obscene character) Contrary to the Criminal Justice and Immigration Act 2008					X
	criminally racist material in UK – to stir up religious hatred (or hatred on the grounds of sexual orientation) - contrary to the Public Order Act 1986					X
	pornography				X	
	promotion of any kind of discrimination				X	
	threatening behaviour, including promotion of physical violence or mental harm				X	
	any other information which may be offensive to colleagues or breaches the integrity of the ethos of the school or brings the school into disrepute				X	
Using school systems to run a private business				X		
Using systems, applications, websites or other mechanisms that bypass the filtering or other safeguards employed by the school / academy				X		
Infringing copyright				X		
Revealing or publicising confidential or proprietary information (eg financial / personal information, databases, computer / network access codes and passwords)				X		
Creating or propagating computer viruses or other harmful files				X		
Unfair usage (downloading / uploading large files that hinders others in their use of the internet)				X		
On-line gaming (educational)				X		
On-line gaming (non educational)				X		
On-line gambling				X		
On-line shopping / commerce			X			
File sharing			X			
Use of social media			X			
Use of messaging apps				X		
Use of video broadcasting eg Youtube		X				

Responding to incidents of misuse

This guidance is intended for use when the staff needs to manage incidents that involve the use of online services. It encourages a safe and secure approach to the management of the incident. Incidents might involve illegal or inappropriate activities (see “User Actions” above).

Illegal Incidents

If there is any suspicion that the web site(s) concerned may contain child abuse images, or if there is any other suspected illegal activity, refer to the right hand side of the Flowchart (below and appendix) for responding to online safety incidents and report immediately to the police.

Other Incidents:

It is hoped that all members of the school community will be responsible users of digital technologies, who understand and follow school / academy policy. However, there may be times when infringements of the policy could take place, through careless or irresponsible or, very rarely, through deliberate misuse.

In the event of suspicion, all steps in this procedure should be followed:

- Have more than one senior member of staff / volunteer involved in this process. This is vital to protect individuals if accusations are subsequently reported.
- Conduct the procedure using a designated computer that will not be used by young people and if necessary can be taken off site by the police should the need arise. Use the same computer for the duration of the procedure.
- It is important to ensure that the relevant staff should have appropriate internet access to conduct the procedure, but also that the sites and content visited are closely monitored and recorded (to provide further protection).
- Record the url of any site containing the alleged misuse and describe the nature of the content causing concern. It may also be necessary to record and store screenshots of the content on the machine being used for investigation. These may be printed, signed and attached to the form (except in the case of images of child sexual abuse – see below)
- Once this has been completed and fully investigated the group will need to judge whether this concern has substance or not.

If it does then appropriate action will be required and could include the following:

- Internal response or discipline procedures
- Involvement by Local Authority or national / local organisation (as relevant).
- Police involvement and/or action
- If content being reviewed includes images of Child abuse then the monitoring should be halted and referred to the Police immediately. Other instances to report to the police would include:
 - incidents of 'grooming' behaviour
 - the sending of obscene materials to a child
 - adult material which potentially breaches the Obscene Publications Act
 - criminally racist material
 - other criminal conduct, activity or materials
- Isolate the computer in question as best you can. Any change to its state may hinder a later police investigation.

It is ESSENTIAL that all of the above steps are taken as they will provide an evidence trail for the *school* and possibly the police and demonstrate that visits to these sites were carried out for child protection purposes.

School Actions & Sanctions

It is more likely that the school will need to deal with incidents that involve inappropriate rather than illegal misuse. It is important that any incidents are dealt with as soon as possible in a proportionate manner, and that members of the school community are aware that incidents have been dealt with. It is intended that incidents of misuse will be dealt with through normal behaviour / disciplinary procedures as follows:

Students / Pupils

Incidents:	Refer to class teacher	Refer to Headteacher	Refer to Police	Refer to technical support staff for action re filtering / security etc	Inform parents / carers	Removal of network / internet access rights	Warning	Further sanction
Deliberately accessing or trying to access material that could be considered illegal (see list in earlier section on unsuitable / inappropriate activities).		X	X					
Unauthorised use of non-educational sites during lessons	X						X	
Unauthorised use of mobile phone / digital camera / other mobile device	X	X			X			
Unauthorised use of social media / messaging apps / personal email	X				X		X	
Unauthorised downloading or uploading of files	X			X				
Allowing others to access school network by sharing username and passwords	X						X	
Attempting to access or accessing the school network, using another student's / pupil's account	X						X	
Attempting to access or accessing the school network, using the account of a member of staff	X	X			X			X
Corrupting or destroying the data of other users	X			X	X			X
Sending an email, text or message that is regarded as offensive, harassment or of a bullying nature	X	X	X		X			X
Continued infringements of the above, following previous warnings or sanctions	X	X		X				X
Actions which could bring the school into disrepute or breach the integrity of the ethos of the school	X	X		X				X
Using proxy sites or other means to subvert the school's / academy's filtering system					X		X	
Accidentally accessing offensive or pornographic material and failing to report the incident	X	X	X	X	X		X	X
Deliberately accessing or trying to access offensive or pornographic material	X	X	X		X			X
Receipt or transmission of material that infringes the copyright of another person or infringes the Data Protection Act	X	X						X

Staff

Actions / Sanctions

Incidents:	Refer to line manager	Refer to Headteacher	Refer to Local Authority / HR	Refer to Police	Refer to Technical Support Staff for action re filtering etc	Warning	Suspension	Disciplinary action
Deliberately accessing or trying to access material that could be considered illegal (see list in earlier section on unsuitable / inappropriate activities).	X	X		X				X
Inappropriate personal use of the internet / social media / personal email	X	X				X		
Unauthorised downloading or uploading of files	X				X	X		
Allowing others to access school network by sharing username and passwords or attempting to access or accessing the school network, using another person's account	X				X	X		
Careless use of personal data eg holding or transferring data in an insecure manner	X					X		
Deliberate actions to breach data protection or network security rules		X			X	X		X
Corrupting or destroying the data of other users or causing deliberate damage to hardware or software		X			X	X		X
Sending an email, text or message that is regarded as offensive, harassment or of a bullying nature		X	X	X			X	X
Using personal email / social networking / instant messaging / text messaging to carrying out digital communications with students / pupils		X	X					X
Actions which could compromise the staff member's professional standing		X	X					X
Actions which could bring the school into disrepute or breach the integrity of the ethos of the school		X					X	
Using proxy sites or other means to subvert the school's filtering system	X					X	X	
Accidentally accessing offensive or pornographic material and failing to report the incident		X	X					
Deliberately accessing or trying to access offensive or pornographic material				X			X	
Breaching copyright or licensing regulations		X						X
Continued infringements of the above, following previous warnings or sanctions		X					X	X
